

This Quick Guide is a generic guide for all Nokia 88xx series and 8210 phones. When you are asked to select the modem you will see *Nokia *****, please select one of the following:

Nokia 8810	Nokia 8810
Nokia 8850	Nokia 8850
Nokia 8210	Nokia 8210

Quick Guide to Using your Nokia Phone with Winfax Pro 9

SETTING UP YOUR WINFAX PRO 9 TO SEND AND RECEIVE FAXES WITH YOUR NOKIA PHONE

If you haven't yet installed Winfax Pro 9.0x on your PC, please do so before continuing and also check that you have your Nokia Phone installed and that it works.

1. Connect your Nokia Phone to your computer via IrDA and start Winfax Pro 9.0x.
2. Go to **Tools – Setup – Program Setup** (Figure 1).

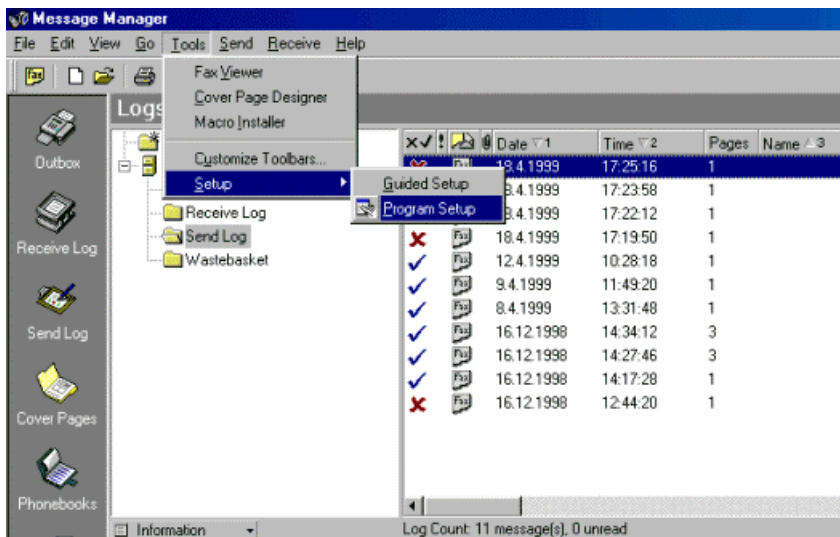

Figure 1. Accessing program setup dialog.

3. Click once on **Modems and Other Fax Devices** and then click the **Properties** button. Select the **Nokia xxxx** as your Connection device from the **Connection Device** list by ticking the box on the right (Figure 2).

Figure 2. Adding a new modem in Winfax Pro 9.0x.

- Winfax Pro 9.0x will now configure your Nokia Phone to work as a faxmodem. First click the **Yes** button and then click the **Next** button; now wait until Winfax has tested your modem. After that click the **Next** button (Figure 3).

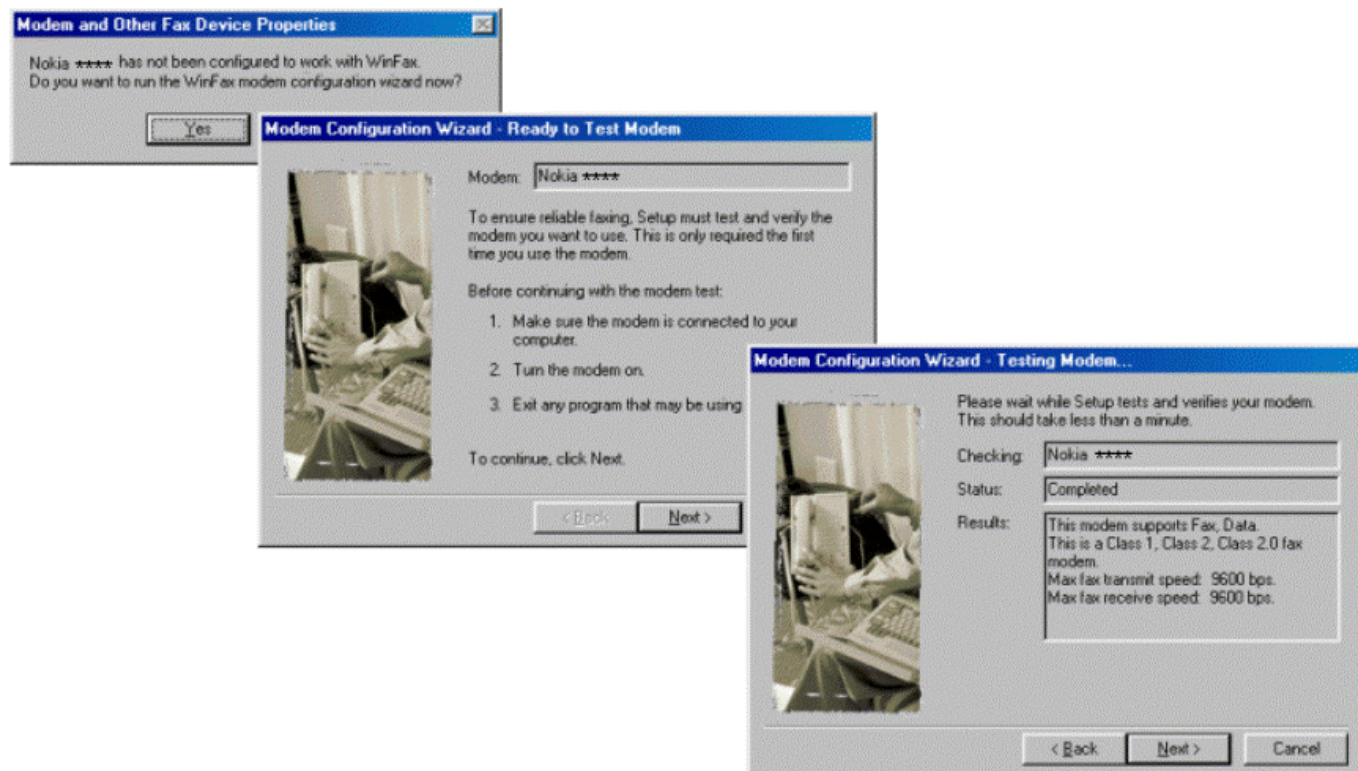

Figure 3. The three steps to configure your modem.

- After you have successfully configured your modem click the **Finish** button. When the program asks you to select the locations for your new modem just accept the default options by clicking the **OK** button (Figure 4).

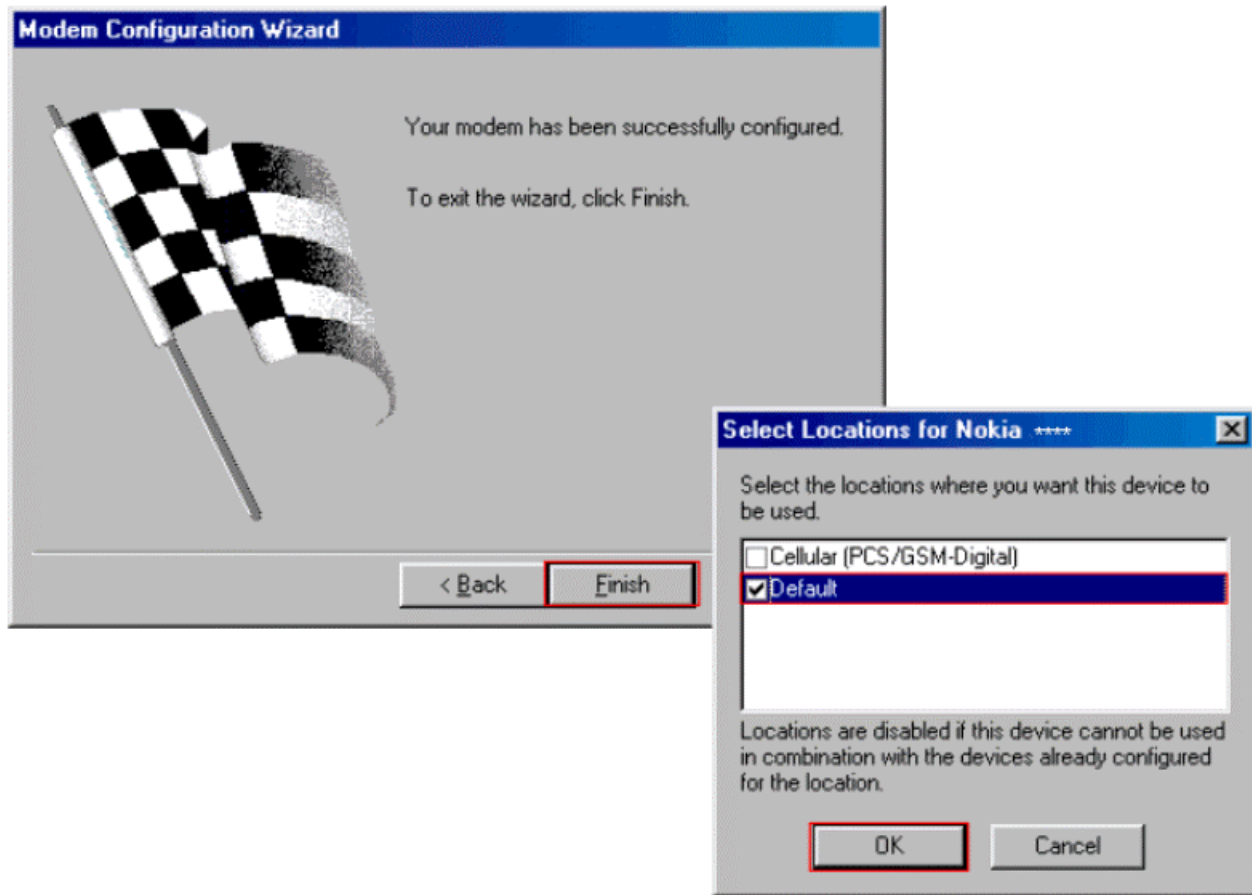

Figure 4. Finishing the modem setup and selecting the locations.

6. Click the **Yes** button and check that you have similar settings in the Dialing Properties window as those displayed in the figure below (Figure 5). **Please Note:** it is important to check that in **General – Dialing** the **Detect busy tone** or the **Detect dial tone** has NOT been selected.

Figure 5. Specifying dialing properties.

Please Note: If fax transmission fails, change the fax class in **Tools – Setup – Program Setup**. Go to **Options - Modems and Other Fax Devices** and select the **Nokia Phone** from the **Connection Device** list. Then click on the **Properties** button and the Properties box for Nokia Phone will appear on the screen. Now you can change the **Modem type** to something else.
